# DID YOU KNOW?

Your hearing health has a direct effect on your overall health.

UNTREATED HEARING LOSS HAS BEEN LINKED TO **DEMENTIA & ALZHEIMER'S**

**THOSE WITH HEARING LOSS EXPERIENCE A 30-40% GREATER DECLINE IN THINKING ABILITIES COMPARED TO THOSE WITHOUT HEARING LOSS.**

Better hearing health and wellness start here

**At Audibel®, we believe to hear better**

**is to live better.** With our wireless hearing solutions, we can help you stay connected to the people and things you love most. Ultimately, helping you to live a healthier, more fulfilling life.

## DEPRESSION

UNCORRECTED HEARING LOSS GIVES RISE TO **POORER QUALITY OF LIFE**, ISOLATION AND REDUCED SOCIAL ACTIVITY, LEADING TO DEPRESSION.

## OTOTOXICITY

THERE ARE MORE THAN 200 MEDICATIONS (PRESCRIPTION AND OVER-THE-COUNTER) ON THE MARKET TODAY THAT ARE KNOWN TO BE OTOTOXIC – WHICH, QUITE LITERALLY, MEANS **“POISONOUS TO THE EARS”**.

**FEVER, MALARIA, MENINGITIS OR ANYTHING THAT ELEVATES TEMPERATURE**

CAN CAUSE DAMAGE TO HAIR CELLS IN THE INNER EAR AND CAUSE HEARING LOSS.

**MAINTAINING HEALTHY WEIGHT & STAYING PHYSICALLY ACTIVE** MAY HELP REDUCE THE RISK OF HEARING LOSS.

**CURRENT SMOKERS HAVE A 70% HIGHER RISK OF HAVING HEARING LOSS THAN NONSMOKERS**

**HEARING LOSS IS TWICE AS COMMON IN PEOPLE WITH DIABETES COMPARED TO THOSE WITHOUT**

**THERE IS A SIGNIFICANT ASSOCIATION BETWEEN HIGH BLOOD PRESSURE AND HEARING LOSS.**

THE INNER EAR IS **EXTREMELY SENSITIVE TO BLOOD FLOW.**

**INADEQUATE BLOOD FLOW AND TRAUMA TO THE BLOOD VESSELS OF THE INNER EAR CAN CONTRIBUTE TO HEARING LOSS.**

**TINNITUS AFFECTS 15 MILLION PEOPLE.**

IT CAN BE CAUSED BY HEARING LOSS, AN EAR INJURY OR A CIRCULATORY SYSTEM DISORDER.

**SEVERAL STUDIES POINT TO A SIGNIFICANT CORRELATION BETWEEN HEARING LOSS AND LOSS OF COGNITIVE FUNCTIONS.**

## OSTEOPOROSIS

A STUDY LINKED OSTEOPOROSIS AND HEARING LOSS, THEORIZING THAT DEMINERALIZATION OF THE THREE MIDDLE EAR BONES MAY CONTRIBUTE TO A CONDUCTIVE HEARING IMPAIRMENT.

# Stay Connected

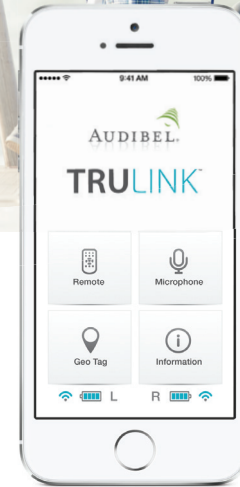

HEAR LIFE TO ITS FULLEST  
WITH AUDIBEL A3i

Our breakthrough Made for iPhone® Hearing Aids and our easy-to-use TruLink™ Hearing Control app are engineered to work specifically with your iPhone, iPad®, iPod touch® and Apple Watch™.

Together, A3i and TruLink deliver the most personalized hearing experience ever, and are designed to:

- Deliver pristine sound and exceptional listening clarity
- Help you hear comfortably in noise
- Eliminate buzzing and whistling
- Stream phone calls, music and more, directly from your iPhone to your hearing aids

A3i and TruLink are compatible with iPhone 6 Plus, iPhone 6, iPhone 5s, iPhone 5c, iPhone 5, iPhone 4s, iPad Air 2, iPad Air, iPad (4th generation), iPad mini 3, iPad mini with Retina display, iPad mini, iPod touch (5th generation) and Apple Watch. Use of Apple Watch requires iPhone 5 or later.

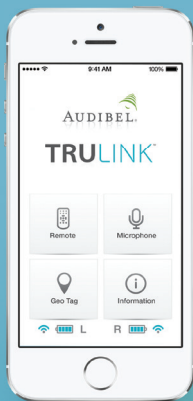

AUDIBEL® A3i™

*Audibel — America's premier nationwide network of hearing care providers*

When it comes to comfortable, great sounding and personalized solutions for their hearing needs, people everywhere ask for Audibel — an American owned and operated manufacturer of advanced hearing solutions.

*It's important to take an empowered, proactive approach to health during every stage of your life - let it begin with your hearing health.*

# Connect to the things you care about most

A3i connects intuitively to your iPhone, iPad and iPod touch via Bluetooth® technology and Audibel's easy-to-use TruLink app. It is designed to enhance your life — so you can easily enjoy everything you do, anywhere you go.

## Phone Calls

Answer your calls with the touch of a finger then hear the entire conversation streamed directly to your A3i hearing aids via Bluetooth technology.

## SoundSpace™

TruLink SoundSpace enables you to easily adjust sound settings to your specific environment. By simply moving your finger on the screen, you can adjust sound to suit your preference — then save it as a TruLink Memory — so every place you're in sounds the way you like it best.

## Remote Control

With the touch of your iPhone, you can easily change volume and switch memories on your hearing aids. And because both are adjusted via a visual indicator bar, you have better control and nearly infinite levels to suit your preference.

## TruLink Memories

You can create up to 20 TruLink Memories using the SoundSpace tool on the TruLink app.

You can even geotag TruLink Memories if you want. A geotag memory uses the built-in GPS on your iPhone to know where you are, then automatically adjusts your A3i hearing aids to that tagged location. For instance, “coffee shop” memory automatically activates when you walk into your favorite coffee shop.

## Auto Experience Manager

Automatically adjusts your A3i hearing aids’ loudness over time to help you transition to your new hearing experience in the most comfortable way.

## Pristine Audio Streaming

A3i hearing aids provide direct streaming of phone calls, music and media from your iPhone — so you can enjoy clear communication and pristine audio streaming any time, anywhere, for an impressive, immersive sound.

## TruLink Adaptive Car Mode

With TruLink’s Adaptive Car Mode, A3i hearing aids will automatically change to a setting designed to reduce the annoying sounds of driving and enhance your “audio” driving experience.

*TruLink is as easy and intuitive to use as your iPhone and iPad.*

## Live Microphone

Record, play back and even email audio as it happens. You can listen to it later. Also use your iPhone as a microphone. Simply set your iPhone nearby, turn on the feature and conversations are streamed directly to your A3i hearing aids.

## Siri® Integration

You can even have Siri read texts and emails directly to your A3i hearing aids.

## Find My Hearing Aids

Easily find lost hearing aids using the Find My Hearing Aids feature, showing both a location and a time stamp. A signal detector sends a stronger or weaker signal based on how close you are to locating your A3i hearing aids.

## Apple Watch Compatible

Use the TruLink app for Apple Watch to control volume, change memories and mute your hearing aids right from your wrist.

Enhance  
Every  
Experience

# Fulfilling all your needs

## YOU WANT:

**To hear more comfortably in noise**

---

**No buzzing or whistling**

---

**Improved high-frequency audibility**

---

**Enhanced phone communication**

---

**Great sounding music and media**

---

**Hearing that's personalized for you**

---

**Hearing that happens intuitively**

---

**Reliable, hassle-free hearing aids**

## A3i DELIVERS:

Advanced noise reduction technology and a precise directional microphone work together to reduce noise, and help make speech easier to hear in today's challenging environments.

Our industry-best feedback canceller provides feedback-free and comfortable listening all-day long.

Patented technology replicates high-frequency sounds (like women's and children's voices) in lower frequencies where they're easier to hear and understand.

Direct streaming of phone calls from your iPhone to your hearing aids enables clear and comfortable conversations.

You can stream any music or media played on your iPhone directly to your hearing aids for a more immersive and impressive listening experience.

The SoundSpace tool on the TruLink app lets you make minor adjustments to sound quality to suit your particular preferences.

Geotagged memories automatically switch modes when the GPS feature in your iPhone detects you are in a tagged location. ("Home" memory activates when you arrive at your home.)

HydraShield<sup>®2</sup> nano-coating repels both water and wax, while the remote functionality of your iPhone lets you control and adjust your hearing aids more easily than ever.

# What's Right For You?

A3i hearing aids are designed to accommodate and enhance a variety of listening environments. What you need will depend on how busy and active you are, and what types of environments you frequent.
